

### Quiz 6

Name: \_\_\_\_\_

ID: \_\_\_\_\_

**Q1.** Write a function to receive an double type array. Calculate sum and subtract from all values? (6 Points)

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

**Q2.** Write output also fill given table? (Some entries can be left blank) (4 Points)

```

public static void main(String []args){
    int x[ ]={...};
    double d[ ]={...};
    String s[ ]={...};
    int a;
    double b;
    a=findHighest(d);
    b=findMiddle(x);
    a=sum(s);
    abc(x,d);
}

```

Output:

---

---

---

---

---

---

By virtue of my creator I have not did any cheating solving this quiz \_\_\_\_\_
